ARMOURING

ARMoured, STRETCH OR HIGH ROOF LIMOUSINES

Individuality, comfort, luxury and safety combined –
for the very highest quality standards

www.welp-armouring.com

SPECIAL VEHICLES REQUIRE SPECIAL TECHNOLOGIES.

Customised vehicles – more room for your comfort

As specialists in custom body work, we can convert luxury vehicles to meet your exact needs and taste. This form of luxury turns your vehicle into a unique piece of craftsmanship with a high-quality look and feel. WELP Armouring can stretch and raise every type of vehicle and equip them with bespoke seating arrangements as well as features for your comfort and entertainment. The conversion work is carried out by our experienced body work specialists using high-quality materials and the very latest professional-grade technologies.

Armoured vehicles – armour plating for limousines

To ensure your safety in every hazardous situation, we produce armoured limousines covering the highest armoured classes for civilians. The combination of stylish comfort and maximum ballistic safety make WELP Armouring's armoured limousines unique throughout the world. Backed by our long-term experience in armoured business, we supply armoured components to renowned German vehicle manufacturers. Preliminary ballistics tests can be carried out on customer request, including certification in our in-house firing range. Our armoured is always produced using certified, high-quality ballistic materials and is monitored by an efficient quality management system.

We have established a global spare parts distribution network for our customers and work in close cooperation with trained service partners across the globe. We are also expanding our service to include driver training, product training and safety consulting. Put your trust in superior, certified all-round protection against explosives and shots from long guns – WELP Armouring.
